Our Platform Overview
Our platform overview connects the property professionals and local sponsors through unified listing and content approval workflow. It ensures listings are accurate, and that the sponsor claims are compliant, and all the content is accessible and trustworthy per the instructions given to us.

Stakeholders
Property Professionals: Agents, the managers, brokers who publish listings
Local Sponsors: Small businesses that appear alongside listings.

The Problem
Property professionals usually struggle with scattered tools and inconsistent approval processes and unclean sponsor claim rules. Sponsors struggle to ensure their claims are compliant and displayed consistently.

The Solution
-Listing Creation
-Sponsor claim and the submission
-Transparent approval workflow
-Accessibility friendly templates
-Compliance aware sponsor verification

Why it matters
-Reduces time spent coordinating approvals
-Ensures sponsor claims follow FTC/ TCPA guidelines
-Improves trust through consistent, verified content
-Helps renters or buyers discover local business

Differentiators
-Built in sponsor claim verification
-Accessibility first listing templates
-Transparent approval workflow
-Dashboard with listing and sponsor status
-Evidence based personas and requirements

The Known Facts
-Stakeholders are property professionals and local sponsors
-Listings require content approval before publishing
-Sponsor claims must be accurate and compliant
-The workflow must avoid sensitive personal data

Interview Guide
<u>All these questions are neutral and non leading and appropriate for simulated discovery.</u>

1. Can you describe your current process for creating or updating these property listings?

2. How do you determine what information needs approval before a certain listings go live?
3. What steps are involved when coordinating with sponsors or partners.
4. Who typically reviews or approves content in your workflow?
5. How do you usually evaluate whether a listing or sponsor placement is successful.
6. What accessibility considerations matter for your consumers?
7. What challenges do you face when ensuring sponsor claims are accurate and compliant?'

Transparent Invitation and the consent Language

Hello my name is Diana Moron and I am a student here at Cal State LA. I am working on a class assignment for a web design and development course and i am conducting a short discovery interview to better understand how property professionals and local sponsors manage listings and content approvals. This participation is voluntary, i will be taking a minimal amount of notes and will not record or store any sensitive personal information. Your responses will be used only for this assignment as well as my professor will be reviewing it. If you are willing to participate please let me know so we can schedule a time.

Personas (*SIMULATED , EVIDENCE BASED WORKING HYPTOHESIS)*

Persona 1→ Property Professional "Maria, the listing manager"
